### **Supplement Disclosure for E-Dispensaries**

As a convenience for our patients, our office has partnered with FULLSCRIPT, a virtual supplement dispensary, to manage supplement inventory and delivery on our behalf. We are able to provide our community a discount to you of 10% from what you would pay for the same products as a retail customer. We value and trust FULLSCRIPT to provide only medical grade supplements through their dispensary. However, *you are under no obligation to purchase* these products from us or our partner; you may purchase the same products elsewhere; and your quality of care in our office will not be affected by your decision to purchase or not purchase products from our office.
